## Overview

Andrew formally a Royal Signals Telecommunications Technician, is a registered and vetted Computer Forensic Expert, Chartered IT Professional and certified Mobile phone examiner and has over 10 years of experience in providing IT consultancy and expert witness services to both Public and Private sectors. Andrew has been involved with computing forensics for 5+ years.

Investigations are carried out on forensically sound copies, primarily using EnCase and Access Data's FTK, to ACPO guidelines for the Private and Public Sector, Legal Sector and law enforcement agencies.

Andrew has experience as a Single Joint Expert, and has been instructed on many occasions as a Prosecution and Defence Expert. Investigations have covered fraud, possession of indecent images, drugs importation, hacking, theft and intellectual property theft.
