Psychiatric/Psychological Injury (PTSD, Adjustment Disorders, Depression and Anxiety and other psychiatric diagnoses)

Assessment and diagnoses of psychological/psychiatric injury resulting from various traumatic events including RTA , assault, sexual assault, domestic violence, industrial accident, war, torture, bullying and harassment, occupational stress, psychological aspects of physical injury/disfigurement, medical negligence, disasters and other traumatic events.

Psychometric Testing

Assessment of intelligence (I.Q.), memory testing and other cognitive functioning in the areas of Learning Disability, general adult and older adult populations.

Family Work

Please note: I am not able to comment on parenting ability or childcare issues.

Treatment (brain injury/adult psychiatric disorder)

Cognitive Rehabilitation and adjustment to chronic health conditions. vocational rehabilitation, guidance and training following head injury, stroke, MS and other brain dysfunction. Neurorehabilitation of memory, executive and other cognitive and emotional problems following head injury and post concussive states. Psychological therapy, including CBT, for adjustment to head injury and other brain disorders for patients and their partners/carers.

Psychological treatment, including cognitive behavioural therapy, in the areas of adult mental health difficulties (anxiety, depression, PTSD etc). Psychological treatment, including CBT, of psychiatric disorder following health related problems.

I have developed internationally recognised cognitive therapy treatments for trauma, specifically having innovated and developed the new generation of Metacognitive CBT treatments for PTSD. I have particular expertise in the treatment of PTSD and related adjustment disorders/trauma reactions.

This list is not exhaustive. Please contact me directly to discuss any relevant cases.

Expert witness experience

I have acted as an expert witness since 1996 and have provided in excess of 3000 reports to Solicitors, C.P.S., C.I.C.A., Trade Unions, employers, insurance companies and other parties including individual contracts with NHS trusts. I have also undertaken several European personal injury cases and been involved in a number of class actions where I have assessed multiple claimants suffering psychological, neuropsychological and brain injury arising from the same index event. I also provide regular medico legal and clinical supervision to professional colleagues trying to establish themselves in medico legal practice. On average I accept around 150 instructions per year. These are approximately:

Psychiatric diagnoses (eg, PTSD, Adjustment Disorders, Depression and Anxiety) following traumatic events/personal injury/medical negligence	15 %
Clinical Neuropsychology (assessment of head injury and other brain functioning)	85 %
Joint single expert	1 %
Defendant work	45%
Claimant work	54%

Full details of my terms and conditions are available on request

I have also received regular Bond Solon Expert Witness and Court Skills Training. I have also been cross-examined in Court and Tribunals including the Royal Courts of Justice.
