

## Commercial Disputes & Investigations

MD5 supports businesses and their legal, accounting and HR advisers with expertise in digital investigations and eDisclosure services.

## MD5 SPECIALISE IN:

Commercial Litigation  
Fraud/ Business Crime  
Intellectual Property/ Trade Secrets  
Employment Cases  
Insolvency  
Internal Investigations  
Tax & Regulatory Investigations

## Digital Forensics

We have considerable expertise and experience in discovering reliable evidence in the ever changing digital environment. We investigate computers, mobile phones, cloud data and internet activity in order to:

- Investigate the chain of digital events
- Recover accidentally or intentionally deleted documents
- Discover "smoking gun" documents and emails
- Authenticate original digital documents.
- Identify evidence from web-browsing, social media, webmail and other internet activity

**Mobile Phone Forensics**

**Computer Forensics**

**eDiscovery/ eDisclosure**

## BENEFITS

1

### eForensics

eForensics combines our experience in digital forensics, data analytics and electronic review. Should the forensic investigation discover high volumes of data, eForensics establishes the facts of a case in much shorter timescales

2

### eDiscovery/ eDisclosure

Provides our clients with proportionate, defensible outcomes where large volumes of data are stored in computers, mobile phones and the Cloud. We have tailored our eDisclosure service to meet the requirements of all types and scale of case. Customers benefit from our user friendly review platform

3

### Triage Service

Fraud and insolvency investigations often require multiple devices to be reviewed to ensure no vital evidence is overlooked. MD5 triage services allows teams to quickly identify and focus on the relevant devices saving both time and costs.
