

PROVIDING COMMERCIAL AND CONTRACTUAL EXPERTISE

IN THE CONSTRUCTION INDUSTRY SINCE 2007

QSi Consultancy Group is a specialist international consultancy established in 2007, providing professional services including: contractual advice, commercial management, claims handling, delay analysis, dispute resolution and expert services to the construction industry and related sectors.

Our consultants have collective experience in over 30 countries around the globe on major projects including; nuclear and conventional power plants, oil and gas, airports, railways, tunnels and highways, high-rise towers, hotels, museums, marine works, ship building, amongst others.

QSi Consultancy Group has offices in the U.K., the E.U. and in the Middle East enabling it to respond rapidly to client instructions in multiple regions.
